0.5U 24P UTP Snap-In Panel

The DINTEK ezi-MANAGE™ 19″ high density unloaded patch panel 24 port in 0.5U with a sturdy metalic design and sequencial numbering, enables significant expansion to your capacity by space saving in the cabinet.

The DINTEK ezi-MANAGE™ high density unloaded patch panel is designed to accept DINTEK PowerPRO™ & PowerMAX™ unshielded RJ45 ezi-JACK's which snap in place easily. The construction provides a finished product that has major advantages in cabinets with reduced space. It is also excellent for use in Datacenter applications where port density and space is at a premium.
