LC Male to LC Female Simplex Singlemode Adapter

The DINTEK Light-LINKS™ LC-LC Fiber Optic Adapter is a premium style fiber optic adapter that allows for the precision connection of differing fiber optic connector types including different ferrule size. It is designed to incorporate the LC environment. The compact design allows for space saving and enables network operators to reduce costs by eliminating hybrid cable assemblies.

A fiber optic adapter, which is also called a fiber coupler, is a single device designed to terminate or link the fiber optic cables or fiber optic connectors between two fiber optic lines.
